## **Portland Skin Care Company Lillie Sabine® Marks First Year Anniversary**

PORTLAND, Oregon--Portland-based cosmetic skin care company Lillie Sabine® has made quite a name for itself as it transitions from the first year anniversary mark into its next phase. After nearly a decade of research and development, the company launched in February, 2015 as a complete and effective facial skin care system comprised of five incredibly luxurious and thoughtfully designed products: Balancing Facial Cleanser, Refreshing Facial Toner, Renewing Facial Scrub, Hydrating Facial Cream, and Revitalizing Eye Cream. A Sample Collection pack is also available, featuring five sample sizes in a slim and stylish box, perfect for travel or on-the-go.

Beginning with online sales and two retail locations (a Lake Oswego hairstyling salon and an Astoria day spa), the product line was soon picked up by MadeHere PDX, a popular Pearl District shop dedicated to showcasing the talents of Portland-based designers, artists, and makers. Within six months of release, upscale Pacific Northwest chain New Seasons Market welcomed the full line into sixteen locations in the Portland metro area and Vancouver, Washington. “The Balancing Facial Cleanser is incredible,” says New Seasons Market Director of Health & Wellness, Cindy Young. “If people try that, they are going to be hooked on the entire line.”

Since its inception, the Lillie Sabine mission has been to craft pure and simple products of exceptional quality, distinguished from many other skin care lines in several significant ways: In contrast to water-based products, each item in the Lillie Sabine line is based with soothing, hydrating aloe vera. This creates rich, luxurious products with no unnecessary ‘fillers’ to dilute or diminish the other ingredients. No harsh chemicals, synthetic fragrances or unnatural dyes are used, resulting in products with a superior blend of high quality ingredients that are beautifully effective due to their inherent, natural qualities. Total organic ingredient contents range from 84% to 95%. Instead of plastic containers, Lillie Sabine products are housed in aesthetically-pleasing and recyclable or reusable glass vessels, which are beneficial to the purity of the product as well as being earth-friendly. Clean, crisp packaging and a charming beret-wearing bee as the company symbol—along with the playful “As natural as can bee” tag line—complement the exceptional product benefits to create a beautiful, complete, and effective facial skin care system.
